

## ***Chassis Mount Animal Control Bodies*** ***Good Looks & Durability All In One***

### **Standard Equipment**

- \* All aluminum construction
- \* Full length stainless steel door hinges
- \* Stainless steel door latches, keyed alike or heavy duty
- \* Storage area includes lights, equipment hooks & carpet
- \* Heavy duty adjustable aluminum multi-louver door vents
- \* LED Tail & Marker Lights
- \* All DOT required lights and reflectors
- \* 6" radius body construction for better aerodynamics
- \* Pop-up roof vents to aid ventilation in hot weather
- \* Inner safety bar doors on all compartments
- \* Uncompromising Jones Trailer Co. Quality and Value

Our all aluminum framework yields superior corrosion resistance while maintaining body strength, reducing overall weight and adding durability of an all metal construction. Our storage area is located just behind the cab for convenience and is accessible from both sides of the body. Our chassis bodies are designed with more aggressive air flow for increased performance in all weather conditions. The LED tail, marker and backup lights are brighter, more durable and safer than conventional lighting.

***Short Wheel Base Trucks***

6 stall without storage or 4 stall with storage

**Available Options;**

- \* Aluminum Frame and Skin ----- \$7,218.00
- \* Aluminum Frame with Stainless Steel Skin ----- \$7,634.00
- \* Skirt Package with 2 Rear Storage Boxes ----- \$582.00
- \* Skirt Package, No Storage Boxes ----- \$262.00
- \* Insulation with Stainless Steel Inner Liner ----- \$943.00
- \* Roof Rack, All Aluminum ----- \$256.00
- \* Interior Lights in Animal Compartments, ea ----- \$39.00
- \* Aluminum Treadplate Rear Bumper ----- \$311.00
- \* Back Up Alarm ----- \$84.00
- \* Loading Ramp ----- \$235.00
- \* Partition Gate Between Stalls, Left and Right, ea - \$87.00
- \* Aluminum Pan, 3" Deep to Fit Stall Floor ----- \$115.00
- \* Refrigerated Air, Operated From Truck Compressor,  
 Truck Engine Runs to Power Unit----- \$1,625.00
- \* Heater----- \$480.00
- \* Cafe Style Inner Safety Doors, ea----- \$115.00
- \* Exhaust Fan, 100 cfm, Roof Mount ----- \$189.00
- \* Exhaust Fan, 965 cfm, Roof Mount----- \$289.00
- \* Heavy Duty Rubber Floor Mats, per stall ----- \$35.00
- \* Side Lift Cage, Req. 3/4 ton or higher----- \$2,250.00
- \* LED Interior Lights in All Compartments----- \$697.00
- \* Gas Charged Struts on Outer Doors, each----- \$52.00
- \* Cab Mounted Thermometer----- \$252.00
- \* Rear Lift with Two Roll Out Cages, Req. 3/4 ton or higher----- \$5,475.00
- \* Installation with AC &/or Heater----- \$750.00
- \* Installation without AC &/or Heater----- \$500.00

***Long Wheel Base trucks***

8 stall without storage or 6 stall with storage

**Available Options;**

- \* Aluminum Frame and Skin----- \$9,350.00
- \* Aluminum Frame and Stainless Steel Skin----- \$9,901.00
- \* Skirt Package with 4 Storage Boxes----- \$932.00
- \* Skirt Package, No Storage Boxes----- \$419.00
- \* Insulation with Stainless Steel Inner Liner----- \$1,258.00
- \* Roof Rack, All Aluminum----- \$304.00
- \* Interior Lights in Animal Compartments, ea----- \$39.00
- \* Aluminum Treadplate Rear Bumper----- \$311.00
- \* Back Up Alarm----- \$84.00
- \* Loading Ramp----- \$235.00
- \* Partition Gate Between Stalls, Left and Right, ea-- \$87.00
- \* Aluminum Pan, 3" Deep to Fit Stall Floor----- \$115.00
- \* Refrigerated Air, Operated From Truck Compressor,  
 Truck Engine Runs to Power Unit----- \$1,625.00

- \* Rear Lift with Two Roll Out Cages, Req. 3/4 ton or higher----- \$5,475.00
- \* Installation with AC &/or Heater----- \$750.00
- \* Installation without AC &/or Heater----- \$500.00

Jones Trailer Company is proud to introduce our Rear Lift Chassis Body, designed with the absolute safety of the Animal Control Officer in mind. This revolutionary new body allows the animal cage to be transported to the animal. The two rear cages, mounted on rubber tires, enable the ACO to roll the cage to the animal, load the animal, roll the cage to the truck, hydraulically raise the cage and roll it into the body. The portable cages allow for the safe containment of vicious animals at the point of capture and they can even be rolled into a house or other building in order to safely transport the animal to the truck body.
